

2. (Amended) The method of claim 1 wherein said soft pliant fabric is leather [is] processed so as to have optical grade abrasive characteristics so as to minimize any degradation of the surface of a display screen resulting from cleaning or wiping said screen with said display screen cleaning tool.

b
b
b
b A2 3. (Amended) The method of claim ²~~1~~ wherein said soft pliant fabric is [leather is] chamois ~~produced by Hutchings & Harding LTD so as to minimize any degradation of the surface of a display screen resulting from cleaning or wiping said screen with said display screen cleaning tool.~~

o 4. (Amended) The method of claim 1 wherein said soft pliant fabric is ^{synthetic chamois fabric} [leather is] ~~chamois-like leather.~~

6. (Amended) A three-dimensional doll-like figure for cleaning or wiping the surface of a display screen comprising:

A3 a plurality of strips of fabric material sewed together so as to form a doll-like figure body having outer surface portions and at least one inner chamber, and wherein at least one of said plurality of strips of fabric material [is] forms, in part, said inner chamber, and is composed of an optical grade fabric having substantially non-abrasive characteristics with regard to display screen surfaces [soft pliant leather having chamois-like characteristics]; and

a selected quantity of stuffing material within said at least one inner chamber so as to provide said doll-like figure with a three dimensional shape which is squeezable for providing a pliant cleaning tool for wiping a display screen.

7. (Amended) The doll-like figure of claim 6 wherein said [soft pliant leather] optical grade fabric is leather processed so as to have optical grade abrasive characteristics so as to minimize any degradation of the surface of a display screen resulting from cleaning or wiping said screen with said display screen cleaning tool.

b A3
8. (Amended) The doll-like figure of claim 6 wherein said [soft pliant leather is processed] optical grade fabric is a ~~chamois-like~~ leather fabric processed so as to have optical grade abrasive characteristics so as to minimize any degradation of the surface of a display screen resulting from cleaning or wiping said screen with said display screen cleaning tool.

b
9. (Amended) The doll-like figure of claim 6 wherein said [soft pliant leather] optical grade fabric is chamois ~~produced by Hutchings & Harding LDT so as to minimize any degradation of the surface of a display screen resulting from cleaning or wiping said screen with said display screen cleaning tool.~~

Please cancel claims 10.

17

A

¹⁰
~~11~~ (Amended). The doll-like figure of claim 6 wherein more than one of said
A 4 [one or more] plurality of strips of a fabric material are assembled together by
sewing.

 Please cancel claims ~~12-17~~.

¹¹
~~18~~ (Amended). A soft-bellied under-stuffed doll-like figure for cleaning or
wiping the surface of a display screen comprising:

strips of fabric material sewed together so as to form a doll-like figure body
having an outer surface portions and at least one inner chamber, and
wherein at least one of said strips of fabric material forms, in part,
A 5 said inner chamber, [is soft pliant leather having chamois-like
characteristics for], and forming the underside belly of said soft-bellied
under-stuffed doll-like figure, and which is composed of an optical
grade fabric having substantially non-abrasive characteristics; and
a selected quantity of stuffing material within said at least one inner
chamber so as to provide said doll-like figure with a three dimensional
shape which is squeezable for providing a pliant cleaning tool for
wiping a display screen.

¹²
~~19~~ (Amended) The soft-bellied under-stuffed doll-like figure of claim ¹¹~~18~~
wherein said [soft pliant] optical grade fabric is leather [is] processed so as to have
substantially optical grade abrasive characteristics so as to minimize any

18

A

degradation of the surface of a display screen resulting from cleaning or wiping said screen with said [display screen cleaning tool] underside belly.

¹⁴ 20. (Amended) The soft-bellied under-stuffed doll-like figure of claim ¹¹ 18 wherein said [soft pliant leather] optical grade fabric is ^{synthetic fabric} ~~chamois-like leather~~ processed so as to have optical grade abrasive characteristics so as to minimize any degradation of the surface of a display screen resulting from cleaning or wiping said screen with said [display screen cleaning tool] underside belly.

¹³ 21. (Amended) The doll-like figure of claim ¹¹ 18 wherein said [soft pliant leather is] optical grade fabric is chamois, ~~produced by Hutchings & Harding LDT so as to minimize any degradation of the surface of a display screen resulting from cleaning or wiping said screen with said [display screen cleaning tool] underside belly.~~

^B 22. (Amended) The doll-like figure of claim 18 wherein said [soft pliant leather] optical grade fabric is chamois-like leather.
